If you are a parent of a 4-7 year-old and your child has experienced any of the following:

- Temper tantrums
- Difficulty making or keeping friends
- Impatience or interrupting
- Not listening

**Raising a Thinking Child** workshop may be just right for you! This evidence-based workshop series will help you guide your child to solve common, everyday problems by communicating with your child.

This program is facilitated by Jenny Wehmeier, Walworth County UW-Extension Family Living Educator. It is a refreshingly practical curriculum that helps you help your child learn how to think, not what to think. Through 8 weekly classes, along with interactive, fun activities for you and your child to do at home, you will learn ways to help your child think in new problem-solving ways.

Participants will learn:

- To give their children skills to solve their own problems and think about the consequences through fun games
- How to help kids care about and understand their own and others' feelings

The cost for the course is $10 (in district) $25 (out of district), which includes the Raising a Thinking Child workbook and other program materials and handouts. Scholarships may be available. All children with parents/caregivers attending can attend the children's program during the classes, free of charge.

**Raising a Thinking Child Workshop Registration**

Please return this form along with fee of $10 (in district family) or $25 (out of district family) by January 16, 2015 to:

UW-Extension, 100 West Walworth Street, Elkhorn, WI 53121
