This year's prairie walk will be held at the Holland residence located on Knob Road. The property is very diverse and includes woodland areas, new and established prairies, wetlands, and wildlife food plots. It's a site to see!

Our main topic will focus on the geology of Wisconsin and how glaciers shaped local landscapes. Our guest speaker will be Eric Carson. He is a geologist from the Wisconsin Geological & Natural History Survey and an Assistant Professor in the University of Wisconsin Department of Environmental Sciences. Following the presentation we will go on a guided walk of the property followed by lunch!
